

WILLMAR

A great place to
live, work, visit
and

CURL!

Our Facility is a two sheet municipal Civic Center with a newly remodeled lobby that connects the two ice rinks. The Willmar Curling Club is in the Blue Line Arena to the left. The facility insulated with heating and dehumidification systems. There is above viewing in a warm club area at the south end, and if you don't mind the chilliness; there is also excellent side viewing from above and at ice level as well.

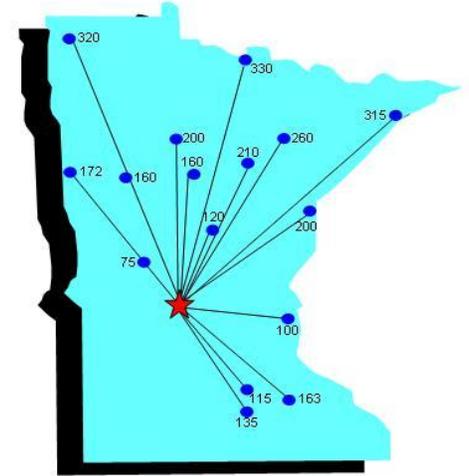

Our Community Hospitality; those that visit Willmar find the people in the area to be very friendly and accommodating. We have many nice hotels, and Willmar is also a retail center in the area, with many of the shopping opportunities you may expect for the "non-curler" in your group. For more information about Willmar visit the local CVB website at www.seeyouinwillmar.com.

Willmar - hardly the boondocks'!

Fact is, Willmar is centrally and conveniently located where three major Minnesota state highways intersect; #71, #23 and #12. Just 50 miles South of I94.

Miles to Willmar (by car - NOT by airplane!)

Our Ice keeps getting better every year. We use DI/RO water for flooding and pebbling, and we acquired a used Ice King to help in converting the ice. Kevin Madsen, manager and ice maker at the Willmar Civic Center (and avid curler) is becoming an authority on converting arena ice into curling ice, and continues to practice and develop innovative methods of efficiently converting great curling ice.

Our Equipment. We now have five sheets of reconditioned stones with blue hone inserts. We have custom made stone carts, and a properly vented stone cooler to keep our stones safe, dry and cold. We also have great large wood scoreboards; designed to be permanent additions to our dedicated facility someday.
